

Cyl Tec

One Resource. Zero Headaches.

Providing exceptional value with expert service since 1991

PRODUCT LINE

BEVERAGE CARBONATION CYLINDERS

Fast Fill Bulk Tanks

- ASME
- Sizes 300 pounds to 750 pounds

Aluminum Carbon Dioxide Cylinders

- DOT/TC
- Sizes 1.5 to 50 pounds

CRYOGENICS

Portable Liquid Cylinders

- DOT/TC – HP & VHP
- Sizes 180 liters to 265 liters

Titan Microbulk

- ASME
- Sizes 1000 liters to 5000 liters

CYLINDER PARTS

High Pressure Cylinder Parts

- Valves, Siphon and Mix Tubes, Caps, Valve Guards and Neck Rings

Cryogenic Cylinder Repair Parts

- Gas Port Restraint Kits, Pressure Gauges, Regulators, Castors, Burst Disks & Relief Valves

Level-Eye

- Cryogenic Cylinder Digital Level Gauge

ACETYLENE AND HIGH PRESSURE CYLINDERS

High Pressure Steel

- DOT/TC and UN/ISO
- Sizes 20 to 493 CF

Acetylene

- DOT/TC
- Sizes 10 CF (MC) to 420 CF

Aluminum

- DOT/TC
- Sizes 4 CF to 265 CF

PAINT

Acrylex Paint

- Fast Drying, Water Reducible, and VOC Compliant

Paint Tools

- Applicators, Accessories and Repair Parts

SERVICES

LIQUID CYLINDER REPAIR

Cyl-Tec applies the same technologies and know-how to the repair process that was used to design and build our line of cryogenic liquid cylinders.

- Cylinders Repaired to OEM Standards
- Vacuum Reestablished
- Shot Blast and Epoxy Paint Steel Cylinders
- Machine Polish Stainless Steel Cylinders
- Prepaid Freight Program
- 2-Year Vacuum Warranty

ALUMINUM CYLINDER REFURBISHING

Cyl-Tec makes cylinders look new again by removing label adhesive build-up and replacing clear coat that has been yellowed by sunlight.

- Clear Coat Painting
- Cylinder Polishing
- Internal Cleaning
- Cylinder Gas Service Changes
- Valve Replacement

CYLINDER TESTING / RE-QUALIFICATION

Cyl-Tec was founded on cylinder testing and continues to be a leader with certifications for both DOT/TC and UN/ISO cylinders.

High Pressure Cylinder Testing

- Hydrostatic Testing
- Ultrasonic Testing

Acetylene Re-Qualification

- Inspect Porous Mass
- Shot Blast and Paint Exterior
- Repair Neck Leak

A COMPANY FOUNDED ON SERVICE

During his 35 year tenure in the compressed gas and welding supply business, George Bennett identified service as the core value that leads to success. In 1991, when he launched Cyl-Tec to serve the compressed gas industry with cylinder testing, George made service the foundation of the new company. Today, sons Jim, Tom, and John carry on the tradition of “customer first” with a company that continues to serve the compressed gas industry with a breadth of products and services.

ONE RESOURCE...

Cyl-Tec’s mission is to serve the needs of the compressed gas industry by providing exceptional value, high quality products, and expert service. To provide our customers with: One Resource. Zero Headaches.
