CYLINDER CRADLES

CO2 ALARM SYSTEMS

ACRYLEX™ CYLINDER PAINT

GUARDS, CAPS, & NECK RINGS

SPECIALTY GAS PRE-TREATMENT

PermaProtect™

— Provides long-term stability for calibration gas mixtures in popular model aluminum cylinders using a proprietary pre-treatment process

PermaProtect™ offers a more ideal containment solution for the specialty gas industry

(Available for N-33, N-150, and N-265 aluminum cylinders.)

LIQUID LEVEL GAUGE & REMOTE MONITORING

Level-Eye® & Wand — Gives a more accurate measurement of the liquefied gas level by displaying precise percentages of remaining product on a digital gauge

CylConnect® Remote Monitoring. Tracks and monitors cylinders/bulk tanks remotely using telemetric devices by transferring data, such as liquid level & pressure, right to your phone app or desktop computer

SERVICES

ULTRASONIC EXAMINATION - UE17

RE-QUALIFICATION TESTING

Utilizing ultrasonic 5-scan technology, Cyl-Tec's UE17 machine uses a non-destructive, single pass test to scan a cylinder's wall as it detects internal defects.

We re-qualify and refurbish all sizes of steel and aluminum cylinders using both ultrasonic and hydrostatic equipment.

CRYOGENIC REPAIR SERVICES*

CRYOGENIC VESSEL REPAIR

Cyl-Tec repairs and refurbishes most brands of cryogenic vessels to their original factory performance and appearance.

Cyl-Tec offers a two-year vacuum warranty and freight pre-paid both ways on four (4) or more cylinders.
