SPECIALTY GAS PRE-TREATMENT

PermaProtect®

PermaProtect® is a proprietary pre-treatment process applied to the inner walls of aluminum cylinders.

- Proven stability for gas mixtures that contain trace amounts of highly corrosive components
- Long-term containment solution

LIQUID LEVEL GAUGE & REMOTE MONITORING

Level-Eye® & Wand

— Gives accurate measurements of liquefied gas levels in cryo tanks. The Level-Eye® digital gauge displays a precise percentage of the remaining product on its LCD. An output of either 4-20mA or 0-5 ratiometric voltage is perfect to connect with remote monitoring systems as well.

SERVICES

CYLINDER BAKE-OUT

For Specialty Gas Cylinders

Cyl-Tec® offers cylinder bake-out and vacuum services for Ultra High Purity Service cylinders.

Our process assures that cylinders designated for use in Ultra High Purity services are prepped and ready for filling by removing any moisture content and trace contaminants.

CRYOGENIC REPAIR

U.S. DOT Approved Repair Facility K054

Cyl-Tec® repairs and refurbishes most brands of cryogenic vessels to their original factory performance and appearance.

Cyl-Tec® offers a two-year vacuum warranty and freight pre-paid both ways on eight (8) or more tanks.
