EASY-ADJUST® PRESSURE REGULATORS

For Cryo-Bio / Cryo-Sauna & industrial cryo applications
when tank pressure needs immediate adjustment

PERFECT FOR UNIQUE MARKETS SUCH AS CRYO-SAUNA & CRYO-BIO!

Both Easy-Adjust® models have a **unique upgraded bonnet design** and can replace standard pressure builder or combination regulators on most cryogenic vessels used today.

Easy-to-read set points allow for accurate and user-friendly field adjustments of the tank's pressure builder and/or economizing set points.

**INNOVATIVE
Design!**

SPECIFICATIONS

Material (Body)	Brass
Material (Bonnet)	Aluminum
Max. Low Temperature	-320°F (-195°C)
Inlet / Outlet	1/4 in.
Max. Inlet Pressure	600 psig (41.34 bar)
Cleaned for O ₂ Use (per CGA 4.1)	Yes
Spring Ranges	Pressure Builder = 15-60 psig Combo = 125-325 psig

KEY BENEFITS

- No special tools required to adjust set points
- Instantly set or adjust working tank pressure on the fly
- Markings on side of regulator provide easy-to-view set points
- Can be retro-fitted to existing tanks
